WORK EXPERIENCE

Indexer & Data Quality Analyst

Department of Home Affairs

Pretoria, South Africa

02/2024 – Present

- Spearhead digital transformation initiatives by transitioning physical government documentation into modern, optimized digital database environments.
- Perform high-volume quality assurance and strict verification checks on digitized records to secure database integrity.
- Enforce strict compliance with official records management standards and secure data handling protocols.

Full Stack Software Engineer

CAPACITI Tech Career Accelerator (ABSA)

Cape Town

01/2023 – 02/2024

- Architected, developed, and maintained full-stack web applications, ensuring seamless integration between front-end and back-end logic.
- Leveraged Agile methodologies to systematically manage code sprints, project backlogs, and collaborative team code reviews.
- Handled version control and deployment pipelines via Git and GitHub.
- Conducted rigorous end-to-end debugging, UI optimization, and cross-browser performance testing.

IT Intern

Amathuba Collective

Cape Town

01/2022 – 02/2023

- Maintained web applications and engineered data visualization reports using Power BI to improve data transparency.
- Supported automated and manual software testing workflows, pinpointing system defects early in the development cycle.

EDUCATION

National Diploma - Safety Management

University of South Africa (UNISA)

Gauteng

01/2021 – Present
